

Meet Mark Lloydbottom

Mark is a chartered accountant with more than 30 years experience in advising individual and businesses. During this time he has owned and managed a number of leading edge businesses.

Mark has been a church leader and taught in many churches and conferences on what the Bible has to say about how we handle our money, wealth and possession. He is committed to sharing what God's plan is for our finances; that we should be free – free to give and free to serve Him.

In 2006 He and his wife Rhoda were planning to spend a year in Bible School when God made it evident that His plan was for the Lloydbottoms to serve Him full time as Crown Financial Ministries' directors in the UK. In this role they serve as unpaid volunteers. He is the principal author of Crown's Biblical Financial Study, Your Money Counts, The Money Devotional, Biblical Finance and Crown's Launch and Lead. His books are currently being published in Asia and five other European countries.

Mark has been a lecturer to accountants for more than 20 years and is the author of Clients 4Life published by the Institute of Chartered Accountants of Scotland and Defining Edge Practice Management Strategies. Mark is a well known author in the accounting profession and he has published financial guides and newsletters for over twenty years that are read annually by more than 500,000 clients of the accounting firms on whose behalf he writes.

An Introduction to Crown Financial Ministries

Crown Financial Ministries (UK) is a Christian money education charity and part of a global interdenominational ministry. We work to make the Bible's teaching on money, wealth and possessions accessible to all. With studies, practical guidance and a growing network of volunteers to help, we seek to equip people to learn, apply and teach God's financial principles.
